The digital, virtual and e-commerce driven world is more important now than ever before.

We can adopt new methods to enhance the student experience, drive graduate retention, employer engagement, support self-employment and showcase emerging talent regionally and beyond.

We recognised the need to present graduates and emerging talent more effectively, give them the best chance to be found online and deliver the right talent to solve problems, transform businesses and provide solutions to complex social issues now.

The IGNITE website provides an opportunity to search for emerging talent, view, watch and listen to the latest topics from Plymouth's creative institutions, local practitioners and key economic partners.

The IGNITE Festival of Creativity, supporting online and live events contribute to making Plymouth and the region a flourishing, innovative and dynamic place to live, work and visit.

IGNITE is the emerging talent arm of The Bridge network which helps businesses and organisations to develop new products, services and access resources.

Our experience of showcasing skills and knowledge available through Plymouth's leading institutions and local practitioners, managing our own events and partnerships, means we are perfectly placed to work with clients to create emerging talent opportunities, creative content, an ever-widening scope of partnerships, destination experiences, live and online events.
